

REMARKS

Claims 1-80 are pending in the present application.

The Examiner has required election in the present application between:

Group I, claims 1-35, 40-74, 79, and 80, drawn to a server device for storing an application divided into a plurality of sub-applications, classified in class 705, subclass 35; and

Group II, claims 36-39 and 75-78, drawn to a terminal device for receiving a sub-application as portion of a divided application, classified in class 705, subclass 43.

**For the purpose of examination of the present application, Applicants elect, with traverse, Group 1, Claims 1-35, 40-74, 79, and 80.**

It is respectfully submitted that the Restriction Requirement is improper in view of the fact that no serious burden is presented to the Examiner to consider all of the claims in a single application.

As set forth in § 803 of the MPEP, the Examiner must examine an application on the merits if the examination of the entire application can be made without serious burden. Two criteria are identified for proper requirement for restriction:

1. The inventions must be independent or distinct as claimed; and
2. There must be a serious burden on the Examiner if the restriction is not required.

Applicants respectfully submit that a serious burden has not been placed on the Examiner to consider all of the claims in a single application. A review of the subject matter set forth in the claims would have an overlapping search. Thus, a different field of search really does not exist with regard to the claims of the present application.

Applicant respectfully requests a copy of an initialed PTO-1449 filed with the Information Disclosure Statement filed on May 25, 2001.

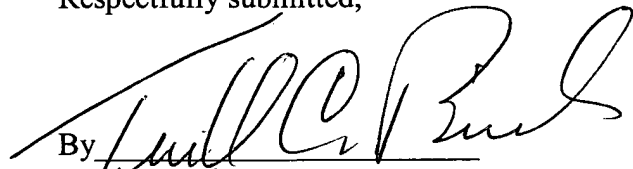

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Catherine M. Voisinet (Reg. No. 52,327) at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
